

Shailesh Dhoke, Ph.D.

Assistant Technical Manager

Dr. Shailesh is a Ph.D from Indian Institute of Technology Bombay, India. His field of research includes waterborne coatings and application of nanotechnology in coatings. He also has an extended experience in formulation of floor coatings, underwater coating, sol-gel coatings and super-hydrophobic coatings. He is the recipient of best PhD thesis award for excellent research in the field of the development of modified waterborne coatings with nano-additives, felicitated by “Society for Surface Protective Coatings” (SSPC) India.

After completing his doctorate, he joined Charter Coating Services (2000) Ltd. in September 2010 and his current assignment includes testing of coatings, failure analysis and technical report writing.
